GoPro Hero 4/5 (Black & Silver) - Setup Guide

Manual Version: v601

INTRODUCTION

Thank you for purchasing Leeming LUT One™, the best Look Up Table (LUT) for the GoPro Hero 4/5 (Black & Silver) action cameras.

The LUT has been carefully developed to get the maximum dynamic range out of the camera, and giving you accurate, pleasing skin tones.

Use it in conjunction with this setup guide to get the highest possible quality images out of the camera.

I am confident you will find this the best LUT for the Hero 4/5. Anything less and I wouldn't have put my name on them!

Enjoy :)

A white, handwritten signature on a dark background. The signature is stylized and appears to be 'PL' or similar initials.

REQUIREMENTS

1. GoPro Hero 4/5 (Black & Silver) edition digital camera running the latest firmware.
2. Leeming LUT One™ for the GoPro Hero 4/5.

CAMERA SETUP

1. Set Video mode and choose your preferred resolution, framerate and if relevant, Field of View (FoV).
2. Low Light should be set to N/A and Spot Meter OFF unless you need to expose for the center of frame.
3. Set PT (ProTune) to ON.
4. White Balance should be set to AUTO and Color to FLAT.
5. Set ISO Limit to 400 to prevent unwanted noise, or higher if you need the extra light gathering capability (though your shots will be noisier).
6. Set Sharpness to LOW and EV Comp to 0.
7. Exit the Settings menu and you are ready to shoot!

You are now ready to use Leeming LUT One™ with the maximum picture quality available. Be sure to read the associated Leeming LUT One™ Installation Manual on how to apply the LUT to your footage in post-production:

www.LeemingLUTOne.com

LICENCE

You are granted a personal licence to use Leeming LUT One™ on a single desktop plus a single laptop (or any combination of two computers). For use with more computers, please contact Visceral Psyche Films for bulk discount pricing. All updates to the product are free of charge. You may not upload the LUT anywhere or share it with other people. Please respect the work that has gone into the LUT and support those supporting you. Thank you!

COMPATIBILITY

Leeming LUT One™ is compatible with any NLE that uses the .cube LUT format. It has been successfully tested with Adobe Premiere CC 2015+, Davinci Resolve 12+, Final Cut X (with a LUT plug-in) and Sony Vegas 13 (with a LUT plug-in).
